METROPOLITAN DISTRICT™

Get Paid to Pull Turf and Save Water!

Don't wait – get paid to replace your thirsty turf with native and adapted plants.

Did you know that replacing just 1,000 sq. ft. of turf can reduce your water consumption by 12,000-20,000 gallons per year? It's not too late to use the lawn replacement program through Resource Central. Receive \$0.50/square foot up to 4,000 square feet (maximum \$2,000 of savings). Commercial rebates also available.

Get free sprinkler evaluations to reduce your water use and bill.

If your sprinkler system hasn't had a checkup in a while, this is your chance at a free evaluation through Resource Central. Sign up now for an inspection, tests and a custom watering schedule that can save you up to 5,000 gals of water/year.

Plan smart this Smart Irrigation Month (July), and for years to come.

Program Spots are Limited – Apply Now

Apply for the Lawn Replacement Program, Slow the Flow Sprinkler Evaluations and Conservation Rebates at:
