

CASTLE PINES NORTH METROPOLITAN DISTRICT

WASTEWATER RATE SCHEDULES

REVENUE CLASS: COMMERCIAL

DEFINITION: Includes commercial meters that provide for both indoor and outdoor needs within the boundaries of the Castle Pines North Metro District.

Average Winter Monthly Consumption (AWC) shall be computed for each account by dividing the total potable water consumption billed to the account for the months of December, January, and February by three. AWC will be calculated in March of each year and be used as the monthly wastewater flow until the following recalculation.

For accounts with zero water consumption during December, January, and February, the account will be assigned the average AWC calculated for its revenue class or the previous years AWC, whichever is less.

New Customers will be charged a \$32.21 flat fee until a winter consumption average is established.

For new Customers and Customers with changing service conditions an alternative base consumption amount may be established.

RATE

Wastewater Flow, Per 1,000 Gallons of AWC, Per Month

All Meter Sizes \$ 8.03

Customer Charge, Per Meter, Per Month

All Meter Sizes \$ 16.31

Approval Date: November 24, 2025

Effective Date: January 1, 2026
